

DOUBLE BLOCK & BLEED VALVE

EnPro DBB Valves are designed for use with various instrumentation equipment. Its main purpose is to control, isolate, measure, calibrate, equalise, drain or vent the pressure of gases and liquids.

HOW IT WORKS

A soft seat provides a reliable/repeatable bubble tight shutoff (Class V).

FEATURES

- Blow out proof stem
- Tested at design pressure
- Fully rebuildable
- Rolled stem threads

OPTIONS

The EnPro DDB Valves are available in a wide range of options to suit individual operational requirements, including:

- Materials
- Sizes
- Connections
- Sealing styles
- Stem types
- Handle varieties
- Relief or burst disc
