

ABOUT US

Since 1990, Haldatec has been providing products and services to the Oil, Gas and related industries in Australia, Pakistan, Singapore, Papua New Guinea, India and New Zealand.

ENPRO

Our house product label, EnPro, has been developed to complement our core business and has been driven by customer needs. Our comprehensive range includes innovative designs, adaptations and applications introduced to solve problems for our customers.

STANDARDS

To ensure we provide the best possible support for our customers and suppliers, we have certification to ISO9001:2015.

PFI FIXED INJECTION QUILL

The PFI Fixed Injection Quill is intended to introduce product into a flowing stream in a pipeline.

Mounting the device is achieved by clamping between two flanges. The length of the probe is fixed.

It can also be supplied with a threaded pipeline or a dual flanged connection.

A direction arrow ensures the probe is mounted in the correct orientation.

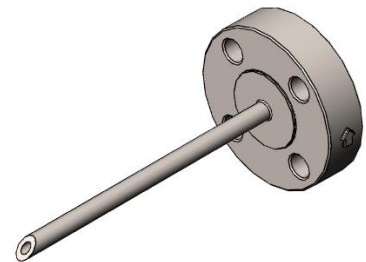

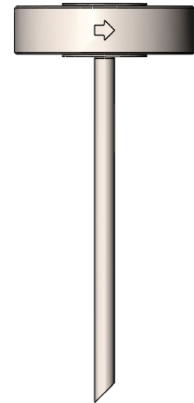

The probe can be furnished with a variety of pipeline connections and materials.

DESIGN

EEMUA publication number 138 standard for the frequency and IEC /TR 61831 for the bending moment. We can also design to PTC 19.3 TW 2016.

SPECIFICATIONS

Sizes	1/2", 3/4", 1" Flanged or NPT
Shaft sizes	To meet standard
Material	316SS, 2205, 2507, A105N
Construction	& others
