

ABOUT US

Since 1991, Haldatec has been providing products and services to the Oil, Gas and related industries in Australia, Pakistan, Singapore, Papua New Guinea, India and New Zealand.

ENPRO

Our house product label, EnPro, has been developed to complement our core business and has been driven by customer needs. Our comprehensive range includes innovative designs, adaptations and applications introduced to solve problems for our customers.

STANDARDS

To ensure we provide the best possible support for our customers and suppliers, we have certification to ISO9001:2015.

FI SERIES - INLINE FILTER

The FI series filters are compact, low volume, inline type filters with replaceable elements. Developed for particulate filtration of gases or liquids, the filters offer protection to downstream devices.

The standard filter element is sintered, 316SS construction with a filtration level of 35µm. Other levels of filtration are available, including both gas and liquid specific elements.

OPTIONS

Options include:

- Materials of construction
- Element filtration levels
- Alternative media

SPECIFICATIONS

Material of Construction	316SS
Process Connections	1/4" NPT ports standard. Other sizes available.
Element Type	35µm 316SS element. Other size elements also available.
Maximum Operating Temperature	204°C
Maximum Operating Pressure	To 41 MPa @ 38 Deg C
